

1."Create an educational worksheet for 8-9-year-olds to practice reading analog clocks. Include problems like 'Draw the clock hands to show 4:30.' and 'What time is it when the hour hand points to 8 and the minute hand points to 2?' Provide visual representations of analog clocks for each problem. Include a brief description of the clock layout. Do not include answers."

Educational Worksheet: Reading Analog Clocks

Name:_____ **Date:**_____

Clock Layout:

This worksheet will help you practice reading analog clocks. Here's a brief description of the clock layout:

- The clock has two hands: the shorter one is the hour hand, and the longer one is the minute hand.
- The numbers 1 through 12 are placed around the edge of the clock, representing the hours.
- There are small markers between the numbers, showing minutes.

Instructions:

1. Draw the clock hands to show 4:30.
[Image of a clock with no clock hands]
2. What time is it when the hour hand points to 8 and the minute hand points to 2?
[Image of a clock with no clock hands]
3. Draw the clock hands to show 10:15.
[Image of a clock with no clock hands]
4. What time is it when the hour hand points to 3 and the minute hand points to 12?
[Image of a clock with no clock hands]
5. Draw the clock hands to show 7:45.
[Image of a clock with no clock hands]
6. What time is it when the hour hand points to 9 and the minute hand points to 6?
[Image of a clock with no clock hands]
7. Draw the clock hands to show 2:30.
