

Generate a worksheet for 8-9-year-olds to practice telling time on analog clocks. Include a question like 'If the minute hand is on the 6 and the hour hand is on the 3, what time is it?' and provide an image of an analog clock. Include a brief description of the clock image. Do not include answers."

Educational Worksheet: Telling Time on Analog Clocks

Name:_____ Date:_____

Clock Image Description:

This worksheet will help you practice telling time on analog clocks. The clock image provided has two clock hands:

- The shorter hand is the hour hand.
- The longer hand is the minute hand.

Instructions:

Look at the analog clock below and answer the question.

[Image of an analog clock with the hour hand on the 3 and the minute hand on the 6]

1. If the minute hand is on the 6 and the hour hand is on the 3, what time is it?

[Blank space for your answer]

1. Study the analog clock carefully. What time does it show?

[Blank space for your answer]

1. Observe the clock's hands. What time is indicated on the clock?

[Blank space for your answer]

1. Analyze the clock. Can you tell me the time it's showing?

[Blank space for your answer]

1. Examine the analog clock. What is the time displayed on the clock?

[Blank space for your answer]

1. Look closely at the clock hands. What time do you see on the clock?

[Blank space for your answer]

1. Focus on the clock's face. What time is it showing?

[Blank space for your answer]

1. Pay attention to the clock hands. What is the time according to the clock?

[Blank space for your answer]

1. Concentrate on the clock. Can you figure out the time?

[Blank space for your answer]

1. Study the clock carefully and write down the time it represents.

[Blank space for your answer]

Practice telling time on analog clocks by analyzing the clock image and answering the questions!
