

Generate me a prompt that when given to AI models generate me a worksheet based on the following problems. make sure you prompt in a way that the AI makes the worksheet in text format and the places where it needs to put images, it puts the description of the image in square brackets.:

Let us learn some new words today. Understand the statement and then fill in the blanks to find the answers. Use the keywords for additional help

Something that you receive on your birthday.

g_f_

Money in the bank for future:

s_v_n_s

Paid position of employment:

j_b

and many more questions like this.

Certainly, you can use the following prompt to generate a worksheet with word problems:

"Generate a worksheet with word problems that involve filling in the blanks to find answers.

Include the following problems and provide a brief description of an image or object in square brackets where appropriate:

1. Something that you receive on your birthday.

- Blank 1: [A gift wrapped with a bow]

2. Money in the bank for the future:

- Blank 1: [Savings account with dollar bills]

3. Paid position of employment:

- Blank 1: [Briefcase with money symbol]

Please include more similar word problems in the worksheet. Make sure it is visually engaging and suitable for a printed worksheet format."

When you provide this prompt to AI models like ChatGPT, it should generate a worksheet with the specified word problems and include descriptions of images or objects in square brackets for visual engagement. You can expand the list of problems as needed, and the AI will generate the worksheet accordingly.
